

Obtain the Revenue, Severity and Risk Scores You Deserve!

Let NJHA-Healthcare Business Services Assist

Introducing...

DRG ASSURE

It is imperative that you align clinical documentation and code assignment to drive accurate quality scores.

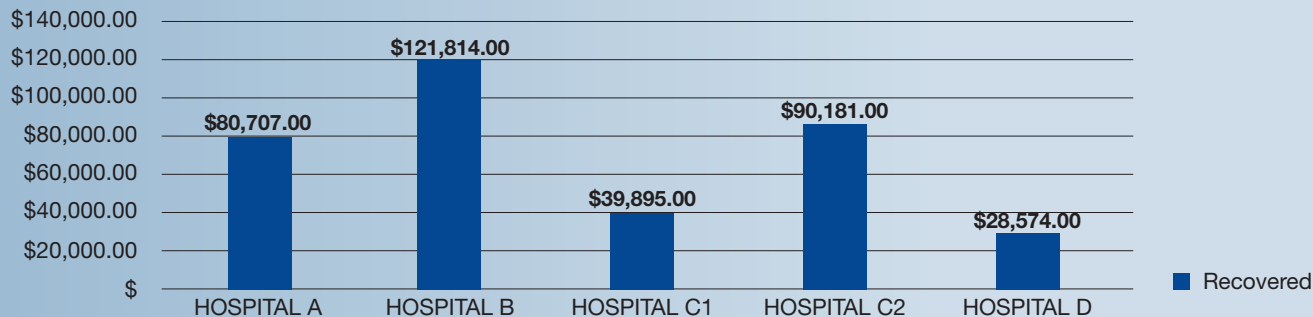

On a prospective basis, NJHA-HBS' team of experts will...

- Confirm that you have adequately captured severity of illness, risk of mortality and co-morbid conditions
- Assure your reimbursement better reflects patient acuity
- Identify documentation improvement opportunities
- Analyze, Summarize, and Categorize your strengths and weaknesses
- Educate and Reinforce confidence and collaboration between your Clinical Documentation Improvement, Performance Improvement, and Health Information Management team

Actual DRG Assure Results

- Number of claims reviewed: 291
- Average recovered per claim: \$1,308
- Total recovered: \$361,171
- CMI improved: 0.62
- Severity of illness improved: 35% (expresses acuity of your patients / quality scores)
