

FALL 2019

Recognizing Clinical Indicators for BULLET-PROOF CODING

No matter how well a provider follows an evidence-based definition in diagnosing and documenting a patient's condition, and no matter how well a coder follows the conventions outlined in the ICD-10-CM Official Guidelines for Coding and Reporting and official advice published in Coding Clinic ... auditors often insert their own interpretation of disease definitions and supporting clinical indicators to declare that an ICD-10 code based on your documentation is clinically invalid and can be removed or denied.

It is up to *you* to recognize clinical indicators to ensure bullet-proof coding.

WEBINAR SERIES | Each Session: 1:00 – 2:00 PM EST

Session I	Sepsis	September 11
Session II	Respiratory Failure	October 2
Session III	Encephalopathy	October 9
Session IV	Renal Failure	October 23
Session V	Denials Management	November 6

PROGRAM OBJECTIVES

In each session, participants will ...

- Learn to recognize and understand clinical indicators
- Understand the link between coding and quality
- Learn to correctly code and query for quality of the record

WHO SHOULD ATTEND

Health Information Management directors, managers, supervisors, coding staff, CDI staff

FACULTY

NJHA-Healthcare Business Solutions Senior Coding Education Consultants / Directors
