

REVENUE CYCLE BASICS

for the HIM Professional

WEBINAR SESSION

March 18, 2020 | 1:00 to 2:00 PM EST

The revenue cycle is a complex process in all healthcare delivery settings. It includes the entire patient experience from pre-admission through payment. As health information (HIM) professionals, we know significant detail about the coding, edit resolution and discharge not final billed processes. Efficiency can be gained by having a more complete understanding of the revenue cycle including registration, insurance verification, care delivery and documentation, coding and charging systems, billing and payment procedures.

This program will give the HIM Professional a basic overview of the hospital revenue cycle and it will help HIM staff understand why the revenue cycle is so important and where they fit into the equation.

PROGRAM OBJECTIVES

- Illustrate the hospital revenue cycle including registration, scheduling, coding, billing and denials management
- Identify key departments in a hospital revenue cycle
- Explain the importance of HIM in the revenue cycle
- Define the course of activities in a hospital revenue cycle
- Introduce and explain examples of key performance measures in the revenue cycle

WHO SHOULD ATTEND

- HIM Managers
- Coders
- HIM Staff
- CDI/Quality Staff
- Business Office Staff
